

Okenní / dveřní systém se středovým těsněním:

Nový Kalibra systém K90 MD sdružuje stejnou měrou vlastnosti a přednosti středového a dorazového těsnění. Velká konstrukční hloubka, šest profilových komor v rámu a křídle a tři kontinuální těsnicí roviny jsou zárukou vynikající tepelné izolace. Tato okna uspokojí i nejvyšší nároky.

Možnosti povrchových úprav:

Základní barva profilace je bílá
Folie v dekoru nebo v polodekoru
Aluclip v barvách RAL
